

## OPPORTUNITY

Are your customer's shipments fully insured? Would you like to earn additional revenues and differentiate from your competitors?

Around half of all shipments currently go un-insured due to high upfront annual fees or slow processes per shipment bookings. That's a chance to use Redkik's solution to turn these problems into opportunities.

## SOLUTIONS

With Redkik, you can distribute per-shipment insurance and get paid for each transaction.

Purchasing an annual freight coverage or utilizing a separate insurance website necessitates data re-keying and other long delays in quotation response times. Redkik's automated solution provides a 1-click, on-demand response.

## WHY CHOOSE REDKIK?

You can build a new revenue stream for the business and offer a value add for your clients to set your services apart from the competitors. Redkik works with the leading global cargo insurers.

Best of all – it's available today!

## WHAT DO OUR PARTNERS GET?

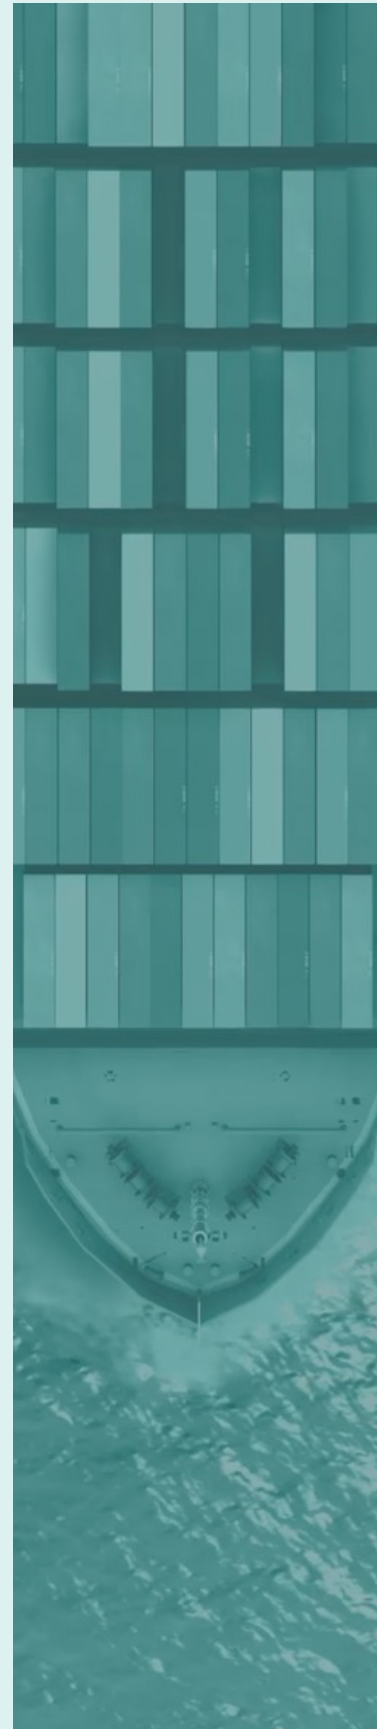

As a Redkik partner, you'll see an increase in client satisfaction as well as a new source of revenue.

You can become a trusted partner and distribute insurance without losing sight of your core regular business; we take care of everything.
